Mahmoud Alyosify
School of Computing
Queen's University
Kingston, Ontario K7L 3N6

Dear Mahmoud,

I am writing this letter to thank you for presenting *Automated Multimodal Agent: PDF to Narrated PowerPoint* at the AI in Teaching and Learning Forum on June 3, 2026.

The integration of artificial intelligence into higher education presents both remarkable opportunities and complex challenges. Your session provided our colleagues with the exact type of grounded insight and practical perspective needed to navigate this shifting landscape. By sharing your work, you gave attendees clear ideas to consider within their own classrooms and disciplines.

As AI transforms the landscape of higher education, for Queen's University to succeed in leading this transformation, we rely entirely on the willingness of educators like yourself to share their expertise and spark campus-wide dialogue. Your contribution not only advanced our collective understanding of AI in pedagogy but also reinforced the collaborative culture of learning we strive to support at Queen's.

Thank you for your leadership at this year's forum and for your ongoing dedication to teaching excellence. We look forward to working with you again in our future endeavours.

Yours sincerely,

Eleftherios K. Soleas (he/his), PhD, CPC(HC), OCT
Director of Lifelong Learning and Innovation
Special Advisor to the Provost on Generative Artificial Intelligence
