SUMMARY

LLM and generative AI engineer who builds **RAG systems, AI agents and fine-tuned language models**, and tests them before they ship. At Injaz Tech, building a RAG assistant that answers staff questions from company documents; top-1 retrieval accuracy rose from 75% to 94%. Master's thesis at Queen's University, Canada (GPA 4.30 / 4.30): open LLMs generate **47.6% fewer tokens** with no answer cut off, without retraining. Also fine-tuned Llama-3-8B on 159,826 records and deployed it on AWS.

SKILLS

LLMs & GenAI: RAG, LangChain, LangGraph, AI agents, prompt engineering, structured outputs, fine-tuning (LoRA, QLoRA, PEFT)

Retrieval: hybrid search (BM25 + embeddings), re-ranking, query rewriting, FAISS, ChromaDB

Models & tools: Hugging Face Transformers, PyTorch, Ollama, Llama 3, Mistral, Qwen, OpenAI and Anthropic APIs

Evaluation: LLM-as-judge, MT-Bench, AlpacaEval, retrieval metrics (top-1, MRR), BERTScore, ROUGE, ablation studies

Engineering: Python, SQL, FastAPI, Pydantic, Docker, AWS, pytest, Git, Linux

EXPERIENCE

AI Engineer Intern — Oct 2026 – Present
Injaz Tech (Injaz Group, formerly Fingerprint Consultancy) — Maadi, Cairo

- Building a RAG assistant that answers employees' questions from company documents, using **LangChain, LangGraph, FAISS** and **FastAPI**.
- Built a **LangGraph** agent that routes each question, grades the evidence it finds, rewrites weak queries and checks its own answer.
- Raised top-1 retrieval accuracy from **75% to 94%** and cut wrong refusals from 5 in 20 to 1 in 20.
- Covered the service with **136 automated tests** (pytest) and an evaluation check that compares each new version with the last.

Part-Time Machine Learning Instructor — Jul 2025 – Present
National Telecommunication Institute (NTI) — Egypt

- Teach **90-hour machine learning bootcamps** and AI for Business modules in NTI's Summer Internships Program.

Systems Engineer (Military Service) — Feb 2024 – Mar 2025
National Company for Roads Building & Development — Cairo

- Supported the backend systems of Egypt's national toll network, used by **more than half of the country's vehicles** across 70%+ of national roads.

Online Instructor — 2020 – Present
Udemy & YouTube (Arabic courses) — Remote

- Created Arabic courses on algorithms, discrete mathematics, probability and statistics: **10,000+ learners, 700K+ views**.

PROJECTS

MinimalLM — Master's thesis, published on arXiv — 2026
Python, PyTorch, Hugging Face Transformers, NVIDIA A40

- A training-free method that makes open LLMs (Mistral-7B, Llama-3.1-8B, Qwen2.5-3B) give shorter answers that are still complete: **47.6% fewer tokens, 19–68% faster, no answer cut off** (0 of 990).
- Answer quality held: LLM-judge score 8.04/10 against 8.42 for the unchanged models (cutting the originals to the same length scores 6.46); the saving holds in six other languages (45.6%).

Horus-OSINT — fine-tuned LLM on AWS — 2026
Python, Llama-3-8B, QLoRA, PySpark, AWS (EC2, S3, EMR), Terraform

- Fine-tuned **Meta-Llama-3-8B** on **159,826** global event and terrorism records (GTD, GDELT) and deployed it on **AWS** as an assistant that answers questions in plain language.

HORUS Sentinel — multi-agent threat-intelligence platform 2026
Python, LangGraph, FastAPI, Neo4j, Ollama, Docker

- Designed a team of AI agents that keep collecting open-source information into a **knowledge graph**; a self-hosted LLM writes evidence-backed reports from it.
- Each agent owns one source; every finding is linked to earlier evidence in the shared graph, so reports trace each claim back to its source.

Automated Multimodal Agent — PDF to narrated slides 2026
Python, LangGraph, Hugging Face, FAISS, Streamlit, text-to-speech

- An agent that turns a PDF into a narrated PowerPoint deck: it reads the document, plans and writes the slides, and records the narration.

Also: Human vs. AI-Agent Pull Requests (research study) · SimCLR-Vision-SSL (84.30% top-1, self-supervised) · RL-Cloud-Autoscaler (PPO and DQN) · SCRAP (satellite collision risk, 48+ hours ahead) · AudioShield (deepfake audio detection).

PUBLICATIONS

Say Less, Mean Better: Training-Free Verbosity Control for Language Models
M. Alyosify, M. Imbabi, E. Elkhamisi, R. Ferdousi · arXiv:2611.04107 (cs.CL) · November 2026

Beyond Truncation? Entailment-Licensed Elision and the Limits of Semantic Preservation in LLM Decoding
M. Alyosify, M. Imbabi, E. Elkhamisi · arXiv:2611.08975 (cs.CL) · November 2026

EDUCATION

MSc in Artificial Intelligence Sep 2025 – Oct 2026
Queen's University Kingston, Canada

- GPA **4.30 / 4.30** · Completed October 2026 · **Digilians Presidential Scholarship** (competitive national AI fellowship)
- Thesis: MinimalLM — shorter LLM answers that stay complete (supervisor: Dr. Rahatara Ferdousi); published on arXiv
- Coursework: Large Language Models, Generative AI, Deep Learning, Reinforcement Learning, Cloud Computing, End-to-End ML Pipelines

BSc in Computer & Information Science (Bioinformatics) Sep 2019 – Jul 2023
Assiut University Assiut, Egypt

- GPA 3.53 / 4.00 (Very Good with Honours) · Graduation project graded A+
- Graduation project: Vitalism Solution, vital signs from ordinary video; **Microsoft Imagine Cup 2023 semi-finalist**

CERTIFICATIONS

- AWS Certified Cloud Practitioner (Amazon Web Services)
- IBM AI Developer Professional Certificate (IBM, 2026)
- Deep Learning Specialization (DeepLearning.AI, 2026)
- Machine Learning Specialization (DeepLearning.AI & Stanford, 2026)
- AWS Academy: Generative AI Foundations, Data Engineering, ML for NLP, ML Foundations

AWARDS & LEADERSHIP

- 1st Place, Smart Cities Hackathon 2022 (77 university teams)
- Semi-Finalist, Microsoft Imagine Cup 2023
- Finalist, ISEIC 2023 (international research competition)
- Secretary, Higher Scientific & Technological Committee, Student Union, Assiut University
